Semrush

The Challenge Before

*Traditional Competitor Analysis
Was Time-Consuming...*

Before,
analyzing competitors' **top-
performing non-brand topics**
was a **slow, manual process.**

The Old Way

- **Identify** top-performing pages
- **Manually** collect non-brand keyword data
- **Build** a website topical map from scratch

Say Goodbye to Tedious Research!

With **Semrush's** new
AI-powered **Topics in
Organic** feature,
EVERYTHING is
streamlined:

NEW!

NEW

Instantly spot non-brand topics driving traffic to your competitors.

Identify gaps in your content strategy and target **high-traffic areas competitors are missing.**

NEW

Visualize content hierarchies and see how many pages are dedicated to a topic.

Covers important topics

comprehensively,
improving SEO and
user experience.

NEW

Export keyword clusters
for your content strategy
with just one click.

Save time and jump-
start your content
creation with
**organized, actionable
keyword data**

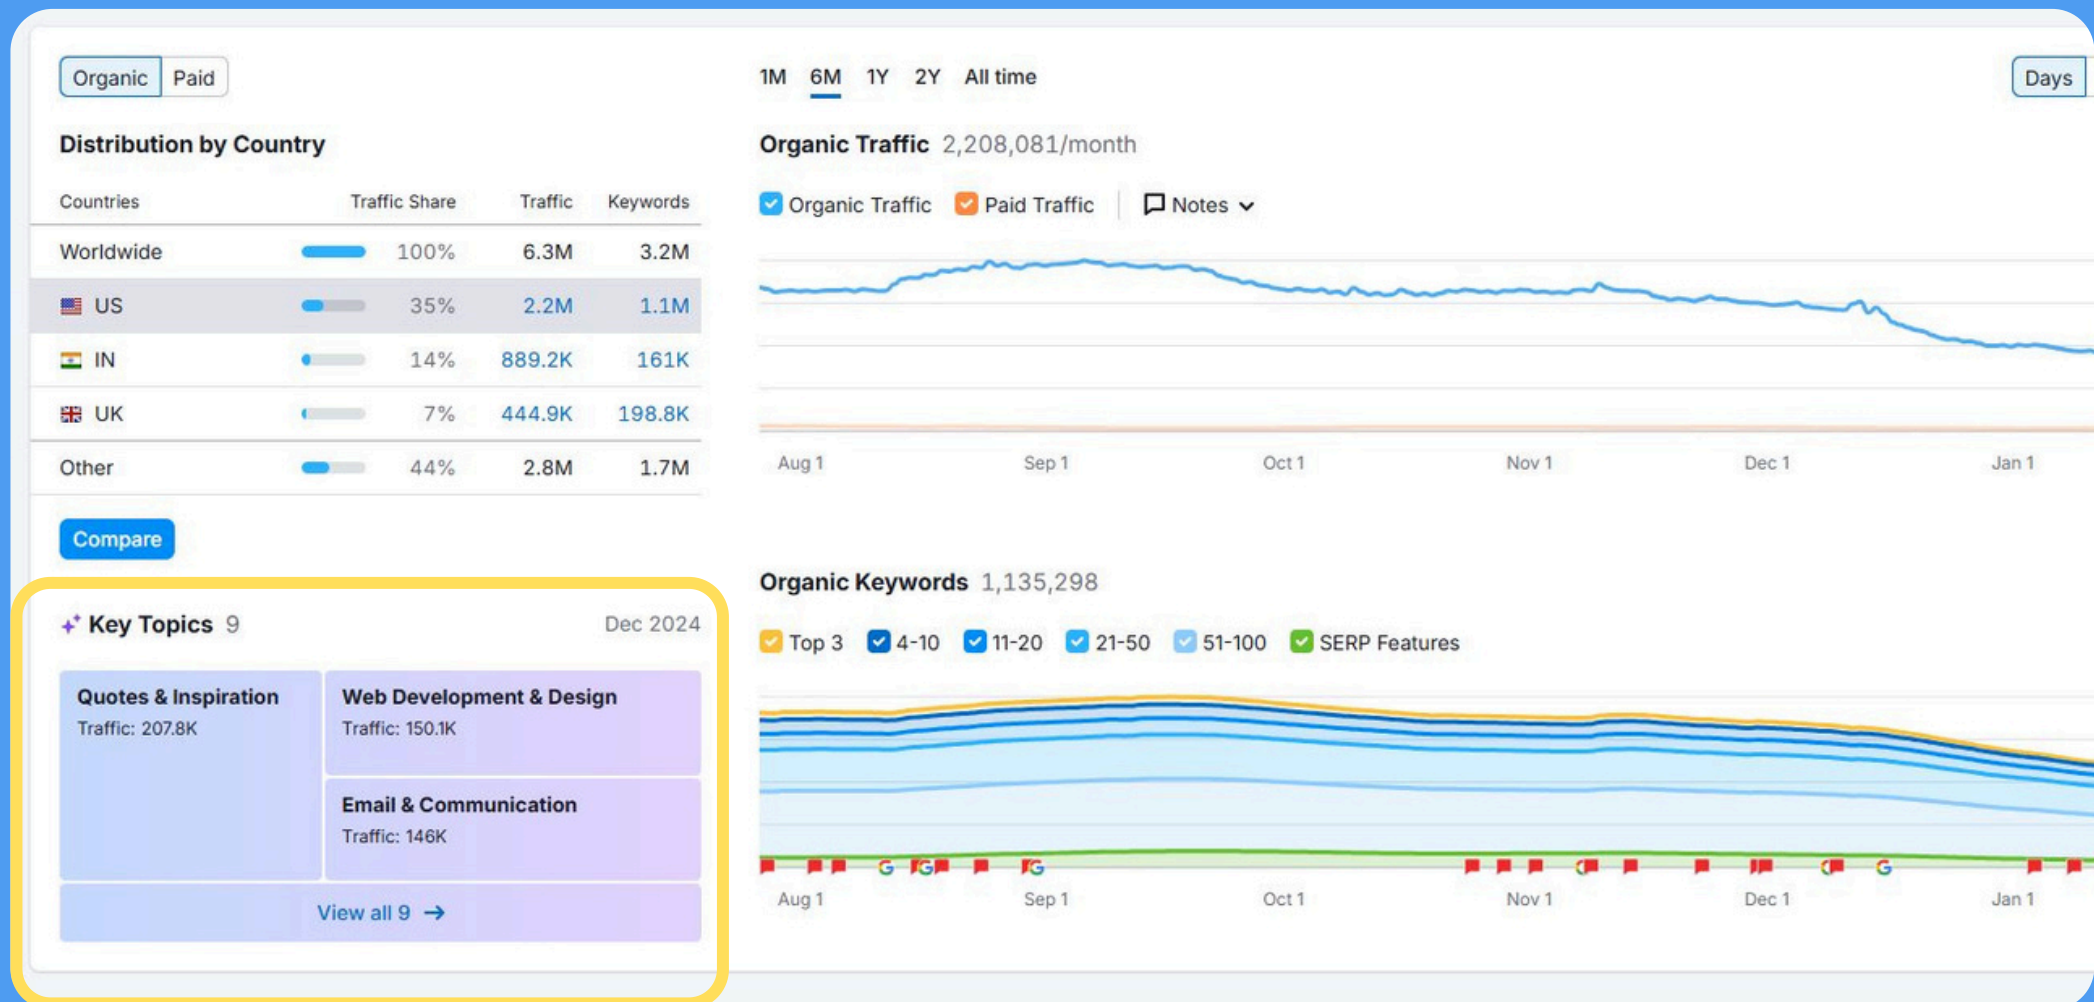

How It Works & where to find it

1

In the **Domain Overview**
tool, access the Topics
tab in the Organic
Research tool:

1

Get a quick overview of the
Competitor's Key Topics.

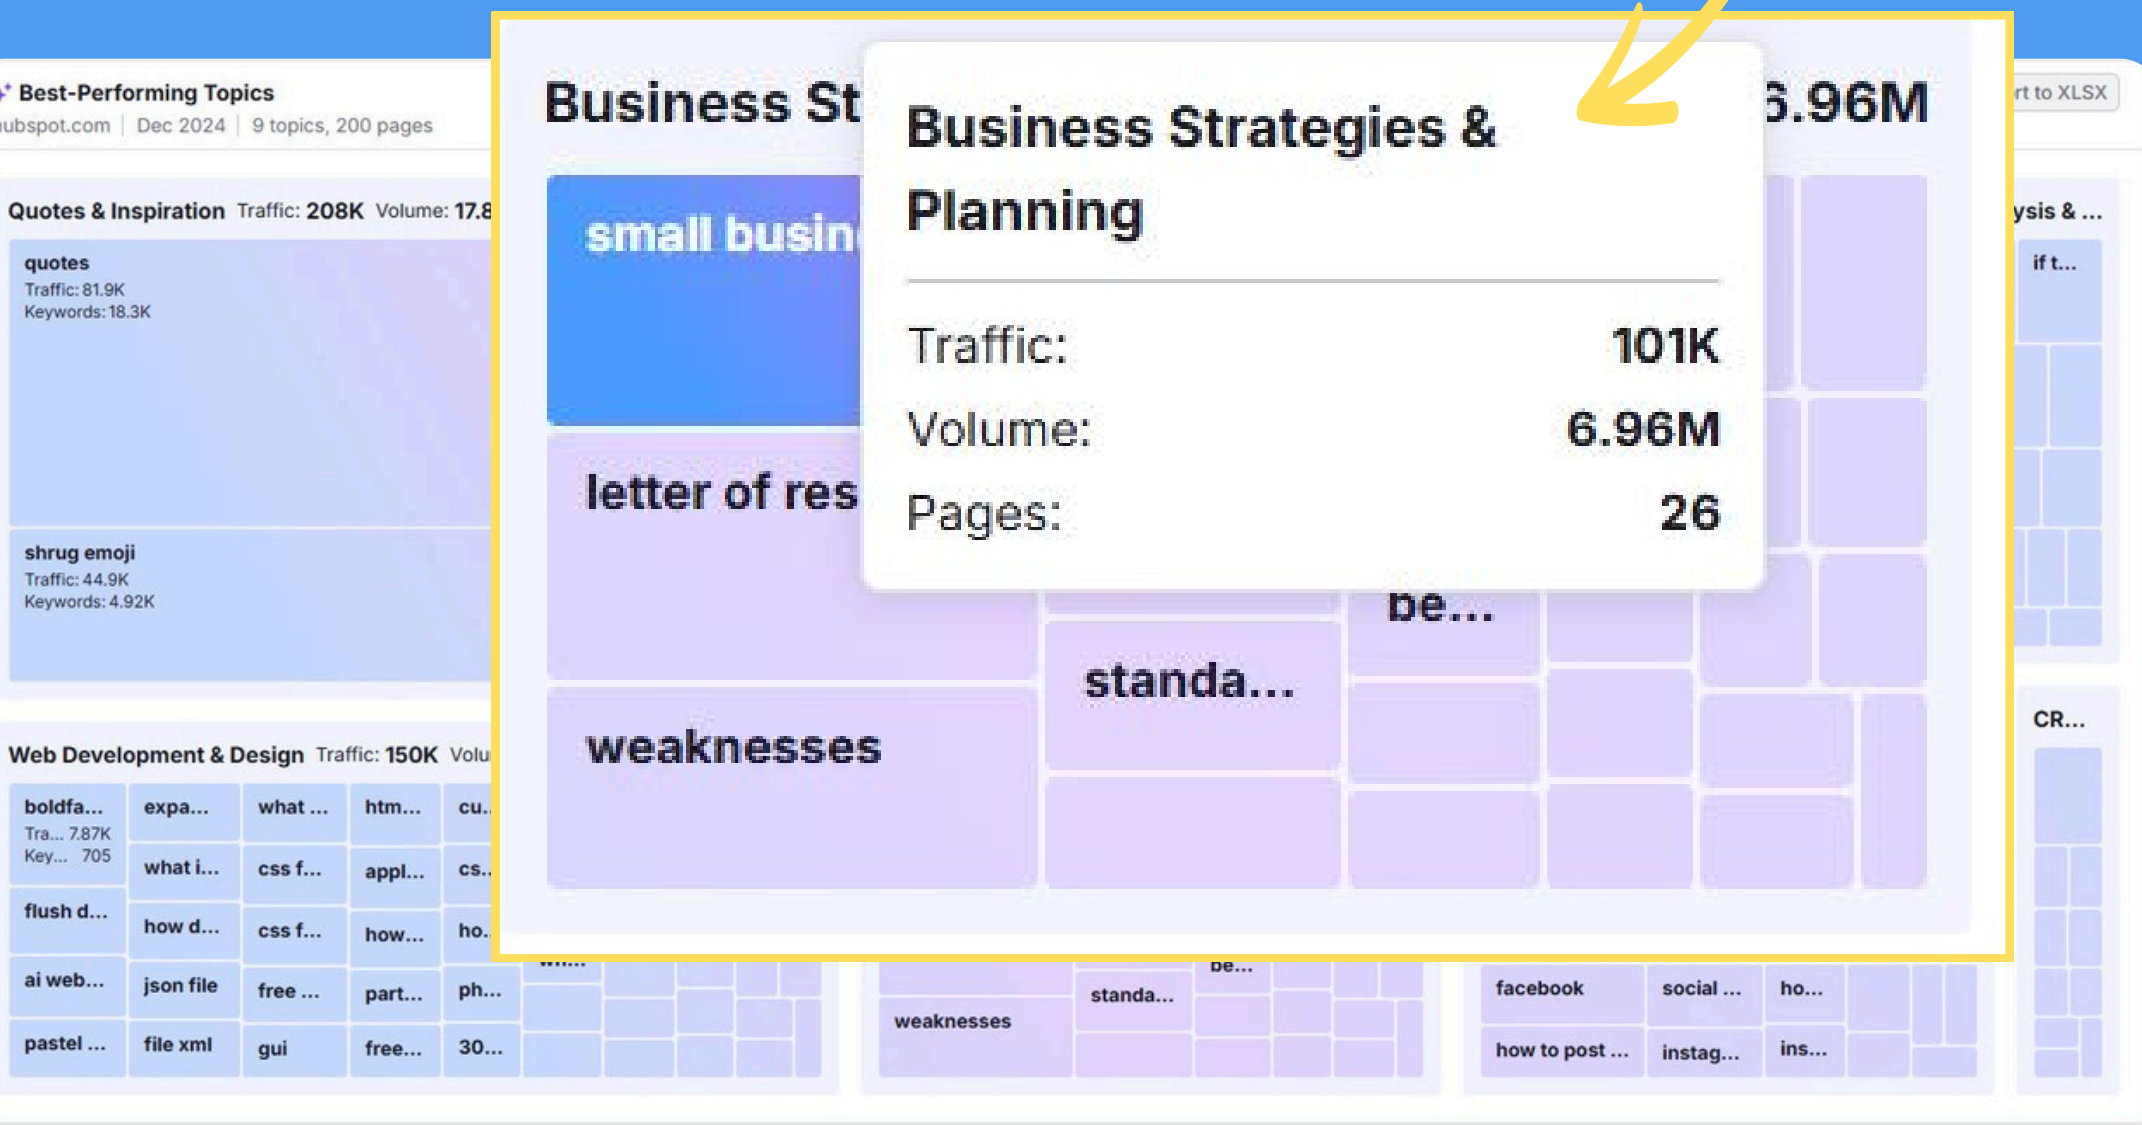

2

By switching to the
Topics Tab in the
Organic Research tool,
users can ...

2

... Evaluate the size of each topic by generated traffic and ranking keywords and pages.

2

... Check the **List of Keywords** that a page is ranking for.
